

Before we begin

A checklist to help make sure you've got everything in order before our project starts.

We need the following items before we start:

Your logo as an .ai or .svg file

About your business questionnaire completed

Website questionnaire completed

FTP information

Google Analytics tracking code

Finalised content for the website

Any high resolution images you'd like us to consider

Avatars of your team, shot with similar lighting and saved in a square format

Login information for your web host and domain name provider
